## *Gletscherspalte*

The Alpenföhn-Brand presents with „Gletscherspalte“ a high-end CPU-cooler with a class of it's own.

This cooler is not only a great visual impact, also the technical features are astonishing. The innovative sandwich-design allows to mount the 120mm-fan between two packages of aluminium-fins, and this assures an enormous cooling capacity combined with very low noise.

The user has the possibility to mount the fan blowing down or blowing up. In combination with a side-panel fan the manufacturer advises the fan-mounting blowing up. Thereby the heat from the DC-converters, chipsets and CPU will be blown out of the case.

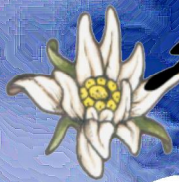

The result:

Lower case-temperature gives you more capability for overclocking!

### Cooler specification:

article number:	84000000013
total high:	145 mm
paste:	2 gr. silver thermal compound
mounting:	universal mounting for Intel 775 and AMD.

### **fan specification:**

<b>model:</b>	<b>GP/DF 1202512CD3p0F-Q2</b>
<b>bearing:</b>	<b>sleeve bearing</b>
<b>size:</b>	<b>120x120x25 mm</b>
<b>cable length:</b>	<b>300 mm</b>
<b>voltage:</b>	<b>12 VDC</b>
<b>speed:</b>	<b>1300 rpm/min</b>
<b>noise:</b>	<b>26 dB(A) max.</b>

### **heatsink specification:**

<b>size:</b>	<b>140x144x133mm</b>
<b>material:</b>	<b>aluminium fins, copper baseplate and 6 copper pipes.</b>

<b>usable for:</b>	<b>All Intel LGA775, AMD and AM2 processors.</b>
